TENNESSEE LEGISLATURE

BROWN FOR SUPREME BENCH.

Said He Will Be Named to Succeed Judge Shields.

The general opinion is that Foster V Brown will be appointed by Gov. Hooper to succeed Judge Shields. He will hold office for two years, and his success will be chosen in the August election o 1914. Judge Will Wright of Anoxville a leading attorney of that section, was regarded as a probable selection until he entered the fight for Judge Shields. Sam Sells, congressman from the First District, is of the opinion that Gov. Hooper will appoint an independent Democrat to succeed Judge Shields,

There is no doubt that Judge E. L. Bullock of Jackson would receive the appointment if it were not for the fact that West Tennessee already has two members of the court, Judge Buchanan and Judge Neil. Judge Shields is the only member from East Tennessee and necessary that his successor come from that division of the state.

The contest for state officers will be gip now that the senatorial contest is out of the way. Hallum W. Goodlee is apparently strong with the members of the legislature, irrespective of factional differences. Mr. Goodloe has taken no part whatever in the other contests, but has been looking after his own candidacy and many influential friends are interested in his behalf.

Several bills were introduced in both the senate and the house. The most important were measures seeking to pre vent frauds in the measurement of articles sold; a state roads hiw, and a bil armed at the soft drink business at John-

Commissioner and Auditor. With the impression that the election will take place some time during the week, numerous candidates are active in the fight. W. P. Hickerson and Judge Lynch are opposing Hallum W. Goodloe for secretary of state. Thomas B, John son is also spoken of as a candidate, and will draw some support from the independents if he makes the race.

Frank Dibrell, state comptroller, wiff probably not get into the contest for reelection, although he is understood to feel that his chances for re-election are much better than at any time since the legislature convened. George P. Woollen is expecting the fusion support for the office, and has been led to believe that he would get it. E. W. Thomas, secre tary to Senator Lea, and clerk of the senate four years ago, and candidate for comptroller two years ago, is said to be considering a contest for the fusion en

MORE MONEY FOR SCHOOLS.

Bill Appropriating One-Third of Gross Revenues for Education.

Senate bill No. 128, introduced by Messrs, McKinney, Pardue and Stewart, is an amendment to the general educational bill, and provides for an increase of the state educational fund from 25 to 33 1-3 per cent of the gross revenues of the state. A companion bill to this has been introduced in the house by Messrs. Todd, Dannel and McCormick. The bill will most likely call for legathy liscussion and a thorough analysis, as it includes larger appropriation for every department of the state educational sys-

The bill seeks to definitely dispose of the 10 per cent equalization fund provided for in the general educational bill. This 10 per cent will be placed at the disposal of the State Board of Education with a view to being used for stim-ulating and encouraging the consolidation of schools with transporation facilities and to urge the appointment of supervisors for Tennessee. The bill also provides for the use of the High School fund not otherwise appropriated, for the organization of agricultural, home economies, manual training and kindred branch departments in the various country high schools.

The passage of this bill will mean much to the State Department of Education to make great progress along the various lines of school work, particularly in the country schools. Prof. J. W. Brister, superintendent of

of the bill, and has given his endorsement to it in toto.

INDUSTRIAL TRAINING FOR BLIND. Bill Introduced Creating a State Blind

The State of Tennessee is asked to create a state commission for the blind to college are unfit for work afterand to appropriate \$10,000 for the establishment and maintenance of training schools and workshops for blind persons in a bill which was introduced in Fisher, James Brett, Jr., and W. D.

Horne of Shelby County.

The bill provides for the appointment by the governor of three members of the new state board, which is to be designated as the Tennessee Commission for the Blind

This commission is to prepare and keep a register of all the blind persons in the state, with a record of their cases, the cause of blindness and capacity for education and industrial training.

The commission is empowered to establish one or more schools for industrial training, including workshops, equip and maintain them, employ instructors and devise means for the sale of the products manufactured.

Young Minister's Passion for Self-Sac rifice Had Results That Might Have Been Anticipated.

The announcement of Miss Helen Miller Gould's betrothal led one of the charity workers of New York to say: "Marriage itself will not be able to quench Miss Gould's passion for giving. Apropos to this passion, she once told me a story.

"There was a young minister, the story ran, who, being poor and hav-ing nothing else to give, used to give away his clothes.
